

ENROLLMENT IN THE LITTLE ROCK SCHOOL DISTRICT
Thirteen Year Comparison
 Prepared by the Office of Desegregation Monitoring

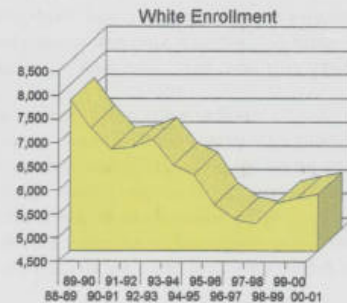

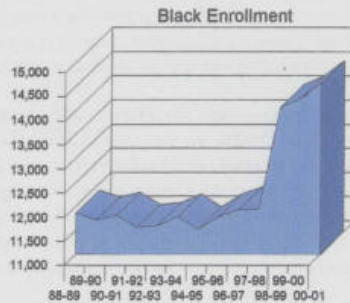

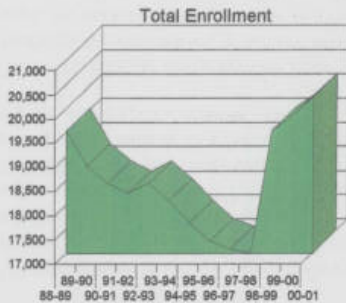

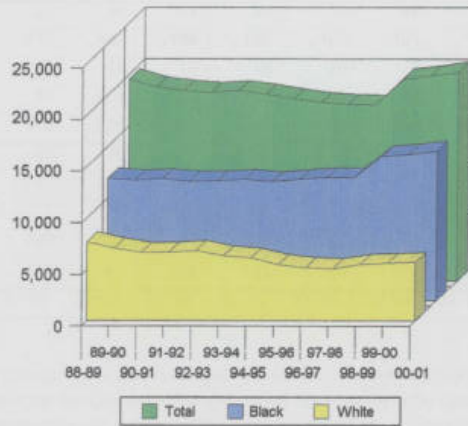

The graphs below magnify the total, black, and white enrollment shown above. The graph above is at intervals of 5,000 students; those below are at intervals of 500.

ENROLLMENT IN THE LRSD AREA SCHOOLS
Thirteen Year Comparison
 Prepared by the Office of Desegregation Monitoring

These graphs (which reflect the data on pages C-22 through C-32) show an enrollment increase in 1998-99 that resulted when the revised LRSD desegregation plan reclassified several district schools. The reclassification increased the 1998-99 enrollment in the area school category by the 2,530 students who attended Dunbar, Franklin, Garland, Mitchell, Rightsell, and Rockefeller, schools that previously had not been considered area schools.

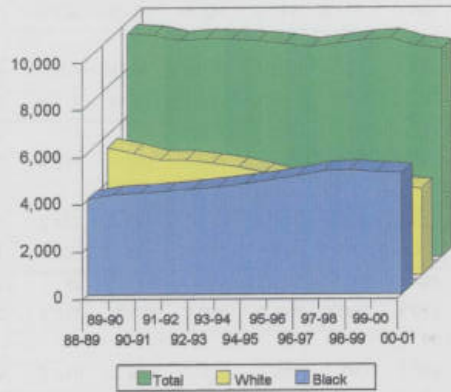

The graphs below magnify the total, black, and white enrollment shown above. The graph to the right is at intervals of 5,000 students; those below are at intervals of 500.

The graphs below magnify the total, black, and white enrollment shown above. The graph above is at intervals of 10,000 students; those below are at intervals of 1,000.

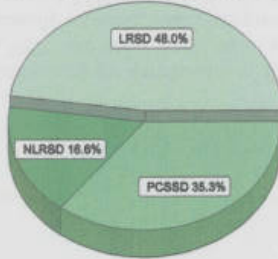

2000-01 Countywide Enrollment Comparison

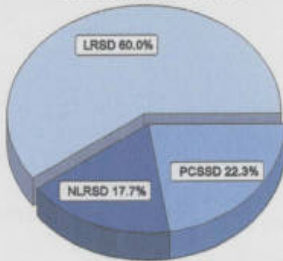

Prepared by the Office of Desegregation Monitoring

The 2000-01 enrollment shows that the LRSD's total student population of 25,451 is a little less than one-half of the countywide enrollment of 52,969.

Total Enrollment

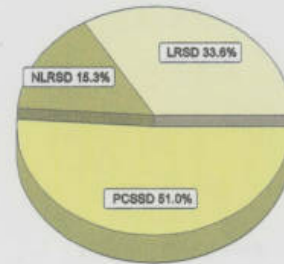

Black Enrollment

Although nearly half of the total countywide enrollment is in the LRSD, the district has almost two-thirds of the countywide black enrollment. The PCSSD has over one-half of the countywide white enrollment.

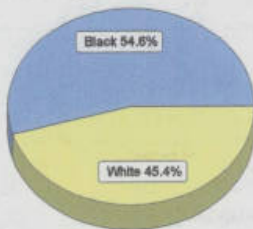

White Enrollment

2000-01 Countywide Black/White Enrollment Comparison

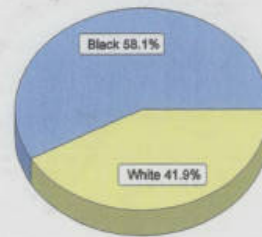

Prepared by the Office of Desegregation Monitoring

Countywide Enrollment

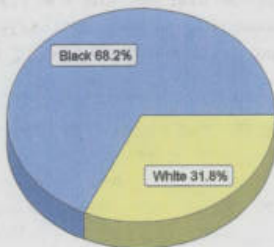

The countywide enrollment, which is the combined enrollments of the LRSD, NLRSD, and PCSSD, is 52,969. The black-to-white proportion of this number is 4.6 points away from a 50%-50% ratio.

NLRSD Enrollment

LRSD Enrollment

When comparing the enrollments of the LRSD and PCSSD, the black/white ratio is almost proportionally reversed, which has prevailed for many years. LRSD's enrollment is a little over two-thirds black, while PCSSD's enrollment is just below two-thirds white.

PCSSD Enrollment
